*Fax: (715) 849-5110*

### **AGENDA**

**NEWCOM Users Group Meeting**  
**Tuesday October 7, 2008**  
**10:00 AM**

**212 River Drive**  
**Conf Rm # 2**  
**Wausau, Wisconsin 54403**

**10:00am – 10:15am** - Introductions

**10:15am – 11:15am** Pictometry Demo - Pictometry is a unique patented information system that combines aerial imaging with a software system to provide a visual intelligence system. (Dean Larson, Pictometry)

**11:20am – 12:20pm** Cisco IPICS Demo- IPICS is a very flexible solution and may also simplify the interoperability between counties and municipalities without having to setup an unrealistic number of channels while giving the flexibility to connect to anyone (Counties, DNR, Red Cross, etc.. depending on the disaster) without a lot of wasted time, effort or expense. (Kim Brown, Cisco)

**12:20pm – 12:30pm** – Other Business

Adjourn

**DIRECTIONS:**  
**See Attached Map**
